

AMENDMENT TO DRAWINGS

The Replacement Sheets of drawings attached as part of the Appendix includes changes to Figures 2, 3, 5 and 7. These Replacement Sheets replace the original sheets containing Figures 2 - 7. In particular, Figures 2 and 3 have been amended to include revised and/or new reference numerals and Figures 5 and 7 have been amended so the legends in these Figures better correspond to the specification and to include a new reference numeral discussed in the specification.

REMARKS

Entry of this Supplemental Preliminary Amendment, which includes entry of the Substitute Specification and Replacement Sheets attached as an Appendix to this paper, is respectfully requested prior to examination of the application.

Applicant notes that the present Supplemental Preliminary Amendment has been prepared to present the specification, drawings, and claims in a form compliant with standard U.S. patent practice. Accordingly, Applicant submits the amendments to the claims have not been made for a reason related to patentability or for a reason related to distinguishing the invention over any known prior art reference. Accordingly, Applicant submits that no estoppel should apply to any feature recited in any of the so amended claims.

Should there be any questions, the Examiner is invited to contact the undersigned at the below-listed telephone number.

Respectfully submitted,
Fabian DOELING
